Resolutions of the meetings dated 6.09.22 and 9.09.22:

Agenda 1: Confirmation of the resolutions of the meeting dated 22.06.22: The IQAC has been newly constituted vide GB meeting dated                      and the newly formed IQAC sitting for the first time welcomed the new members amidst them. Next the resolutions of the meeting dated 22.06.22 were read out and confirmed.

Agenda 2: Continuation of the good practices begun lately: The IQAC Coordinator read out the good practices that the IQAC has initiated in the last year. It was also felt that some of those practices needed to be strengthened, like for example the mentor-mentee system, alumni registration mechanism, grievance redressal system etc. As far as mentor-mentee, it was felt that on the retirement of Dr. Pradip Kumar Dash, two other teachers needed to be chosen who will do the mentor-mentee selection like Dr. Dash did last year.

Agenda 3: New quality initiatives:

a) It was felt that the dearth of teachers in different departments was adversely affecting teaching-learning in those departments. As it was not possible for the college to appoint teachers, it was decided that the college arrange seminar lectures by qualified academics for the benefit of the students of those departments.

b) It was felt that the college needed to earmark its Best Practices and Institutional Distinctiveness and build on them from now on. The two Best Practices, thus, chosen were i) Clean and Green Campus and ii) Digitization of curriculum transaction. The institutional distinctiveness selected was Esho Manush Hao (Be and Make Man). A three member committee comprising Dr Dipesh Ghosh, Dr. Tanmoy Kar and Sri Samir Kumar Maity was formed to oversee the Esho Manush Hao programme. It was felt that for greenification of campus, water logging in the land in front of science building needs to be addressed. The College President assured that he will look into the matter.

c) It was felt that the college subcommittees needed to be made functional. The IQAC Coordinator proposed that each sub-committee head submit a report every 3/6 months on the activities of the respective sub-committee in that period. The proposal was accepted.

d) As the old biometric device was malfunctioning, and the college office was finding it difficult to retrieve essential data from the system, a proposal of having a new biometric device came up. The members urged the college authority to use biometric data to fix accountability, provided which an upgraded biometric system be installed.

Agenda 4: Tabling of the feedback data: The feedback data that was taken in offline/online mode was put before the IQAC by the feedback committee. The responses of the students to the overall academic scenario in the college was found to be on the whole satisfactory. The response of the teachers to the academic environment including infrastructural facilities in the college was not however very satisfactory. Dearth of books in the library along with poor sanitary facilities were highlighted. In the light of the feedback from teachers, it was resolved that the existing washrooms of both the male and female teachers are be renovated. Book purchase in the library was also to be expedited.

Agenda 5: Mobilization of funds: Sri Srideb Mandal, alumni of the institution and more importantly a reputed business person in the Haldia belt assured the college authority that he will do his utmost to tap into his contacts among industrialists in Haldia and arrange meetings of college representatives with the HR's of reputed industrial houses in Haldia. It would then be up to the college to convince the industrial houses to release funds for the development of the college.

Agenda 6: Criterion wise stock taking: The Criteria were redistributed among IQAC teacher members following the formation of the new IQAC. Among additions and changes, Dr. Dipak Kumar Mandal was given the charge of Criterion 1, Dr. Atanu Jana and Dr. Arijit Roy would be jointly in charge of Criterion 2, Similarly Dr. Dipesh Ghosh and Dr. Tanmoy Kar would be jointly in charges of Criterion 5 and 7 respectively. Also, to ensure accountability the IQAC Coordinator suggested that criteria heads submit reports every month on the quality initiatives undertaken by them in their criteria in that period. The IQAC Coordinator read out some such quality initiatives that could be executed in each of the criteria for the benefit of the criteria heads.

Agenda 7: AQAR 20-21 preparation: The respective criteria heads were requested to activate their respective criteria Whats app groups and start collecting data for AQAR 20-21. A deadline of 28th September (last day before the Pujas) was set by which they would have to finish the above process.

Agenda 8: PO/CO attainment: The IQAC felt that once more we need to find out to what extent our outgoing 6th sem students have been able to achieve the requisite PO/CO. As like last time, it was decided that PO/CO will be measured by both the direct and indirect method.
