Now, the infrastructural facilities, well equipped project and practical rooms are available for better improvement of intellect of students and their brilliance in project work ,state-level workshops and seminars. There are qualified teachers who take the responsibility of progressive studies of the students by organizing high number of regular classes. But, we need larger Practical Room for commerce department to conduct practical classes on Computer application in new syllabus which will be effective from 2015-16. For which we need more computers to share the practical class by large number of students at a time. Presently, we can allow a few students to take part in practical class at a time in our department. Certainly, this whole-hearted approach of the Commerce Department is going to help our students to compete better.
